

Rocket Fuel

Strategic website growth packages to increase your attraction revenue, improve guest satisfaction and get results.

neil@semantic.co.uk | 02380 111 550

hello

Guest behaviour has experienced its largest shift since the smartphone revolution 15 years ago.

They expect fast, optimised experiences, right from their first visit. For attractions, keeping up has been a challenge, with squeezed budgets, small teams and complicated systems...

To have a winning attraction, you need **winning websites**, **smart systems** and **definitive data**.

Semantic's **Rocket Fuel packages** can help. We can deliver joined up strategic online optimisation, ongoing development and support from a team of attractions experts.

the challenge

Delivering the best guest experience in a post-pandemic, mobile-first landscape.

it's a mobile-first world

Your guests want seamless purchase journeys, engaging content and an optimised mobile-first experience.

- ◆ **20%** of user have abandoned purchases due to poor UX ¹
Frustrated users are less likely to buy or upgrade on your site.
- ◆ **4.42%** drop in conversion rate per second of load time ²
Slow sites cost money, search engine rankings and affect guest satisfaction.
- ◆ **Grow conversion rate by 35.26%** with better checkout design ³
Most attractions are leaving money on the table with clunky purchase journeys.

The best-performing attractions will adapt quickly, understand their guests and test new ideas to refine their online experience.

This rapid shift will continue, and there will be winners and losers...

Conversion rates are all important

The average e-commerce site can improve conversion rate by 35% just with design improvements to the checkout flow.

Do you have easy advance bookings?

For most visitor attractions more than 80% of bookings take place online in advance (a significant shift from the pandemic)

Is your site and booking journey optimised?

Investments in brand sites and booking journeys can no longer be separated, and guests experience slick journeys throughout.

Are you confident in your key stats?

E.g. bounce rate, cart abandonment, conversion rate, device usage and cross device conversion rates.

testimonials

Building lasting trusting relationships is one of our core values.

“The **flexible/dynamic** support we've had from Semantic has been simply excellent over the last year.”

Matt Lippert - management team.

“A **fantastic** team who made the whole process so easy - Highly recommend”

Georgina Shannon, SEA LIFE Trust

“The Semantic team have been **amazing** and from all here at YWP thank you so much. I know Covid and an expansion got in the way but it's so pleasing to see everything live and bookings coming through.”

Lindsi Blakeman | Head of Marketing

“The site is stunning, **great customer journey** and it clearly communicates our compelling offer”

Sally Reynolds, CEO

“I've been **incredibly impressed** with their attentiveness, quick responses and proactive approach. They are a friendly but professional agency whom have **helped out business grow.**”

Nicola Langridge, Bodmin Jail

“We've been working with Semantic since 2017 and they are the **best web agency** I have dealt with. Always able to help with our last minute requests and the quality of their work is fantastic.”

James Ferns, Ironbridge

FAQs

- ? What's included in each package**
See the Packages & Prices section for an overview, or please get in touch with us for a breakdown of tasks covered each month.
- ? How much are packages and bundles**
We have included an overview in the Packages & Prices section but can offer savings when you add one or more Booster Packs.
- ? What reporting do I get?**
Depending on the package, we offer regular email updates, support lines and custom dashboards so that you can see usage, progress and ongoing improvements.
- ? Is there a minimum contract length**
Much of the research and setup is carried out during the early stages, so the contracts are a minimum of 3 months. You can save money by committing to 12 months or more.
- ? Does my site need to have been built by Semantic?**
No, normally we can take on existing sites, depending on the CMS.
- ? Will you need to rebuild my site?**
Not normally, but this depends on the age, reliability and systems that the site is using. We will be able to advise this during the setup.
- ? Can I just have SEO/PPC/Conversion Rate Optimisation**
Yes, if you're happy with your current agency or approach then we'd be happy to work with them to provide attractions-focused expertise whilst they handled support/maintenance of your current code.
- ? Can you work with my in-house development team?**
Yes, we have worked with in-house teams in the past and they normally enjoy being able to discuss ideas and improvements.
- ? Is site hosting / infrastructure included**
Plans include time for managing the hosting, but supplier hosting costs would be passed on, or payable by you.
- ? Are there any other costs?**
Larger project work or complicated features/split tests might sometimes need to be quoted which we would discuss with you in advance.
- ? Do you offer any guarantees**
Yes, we'll work with you to set achievable goals and KPIs, and all work is backed by our satisfaction guarantee. We only bill happy clients.
- ? Can I talk to some of your current clients**
Yes, you are welcome to get in touch with them directly or we can provide references as needed.

it's easy to get started

We're always happy to help, and like to keep it simple.

- Set a time for initial call and confirm the approach
- Confirm package scope, dates and payment plan
- Confirm access checklist & handover

All we'll need to get started is site/server access, and analytics access if you have it...

Please get in touch if you have any questions
